MEMORANDUM FOR THE RECORD

SUBJECT: Statement by DCI Concerning Operations of
Foreign Intelligence Organizations in the
United States

In response to several questions from U.S. News and World Report
concerning the CIA and foreign intelligence organizations, I today
provided Joe Fromm with the following statement attributable to the
DCI:

"There are no agreements of any kind which give, or
could even be construed as giving, foreign intelligence
services license to operate illegally in the United States.
Also, you know that the CIA has no internal security
functions in the United States. Should the CIA somehow
become aware of illegal activities undertaken by foreign
intelligence agencies in this country, we would immediately
notify the Justice Department and other appropriate officials
or agencies of the U.S. Government."
